

High Performance Metal Solutions

High Performance Solutions for LT Superconducting Wire

H.C. Starck Solutions offers billet extrusion services for tantalum and niobium for high performance superconducting wire.

Applications

Nb₃Sn superconducting wire for high magnetic field applications: NMR, mass spectroscopy (FTMS), particle accelerators, nuclear fusion research equipment.

Billet Extrusion

- > **Press Force**
 - > 5500 tons
- > **Extrusion Temperature**
 - > Wide range
 - > Controlled atmosphere
- > **Input Billet Diameter**
 - > 152 – 432 mm (6 – 17 inch) diameters

H.C. Starck offers billet extrusion services for superconducting wire. The 5500 mt press is uniquely equipped with state of art controls for accurate dimensional control and optimum reductions. The high tonnage results in improved superconducting wire yields and superior wire properties.

H.C. Starck Solutions operates globally in accordance with stringent purchasing guidelines and processes only raw materials acquired from conflict-free sources.

The conditions of your use and application of our products, technical assistance and information (whether verbal, written or by way of production evaluations), including any suggested formulations and recommendations, are beyond our control. Therefore, it is imperative that you test our products, technical assistance and information to determine to your own satisfaction whether they are suitable for your intended uses and applications. This application-specific analysis at least must include testing to determine suitability from a technical as well as health, safety, and environmental standpoint. Such testing has not necessarily been done by H.C. Starck Solutions. All information is given without warranty or guarantee. It is expressly understood and agreed that the customer assumes and hereby expressly releases H.C. Starck Solutions from all liability, in tort, contract or otherwise, incurred in connection with the use of our products, technical assistance and information. Any statement or recommendation not contained herein is unauthorized and shall not bind H.C. Starck Solutions. Nothing herein shall be construed as a recommendation to use any product in conflict with patents covering any material or its use. No license is implied or in fact granted under the claims of any patent. Properties of the products referred to herein shall as general rule not be classed as information on the properties of the item for sale. In case of order please refer to issue number of the respective product data sheet. All deliveries are based on the latest issue of the product data sheet and the latest version of our General Conditions of Sale and Delivery.
